

# Autism Victoria presents

## 2006 Autism Spectrum Disorder Research Forum

This Forum is an opportunity to hear about Autism Spectrum Disorder research currently being undertaken by Victorian research teams, including undergraduate and post graduate students. The Autism Victoria Research Reference Group (a sub-committee of the new Autism Victoria Professional Panel) is especially pleased to welcome Keynote Speaker, Dr Susan Leekam. The day will provide an opportunity to share common interests and concerns in the autism research field. It will be suitable for all autism researchers, students, clinicians and educators, as well as parents interested in Victorian autism research. The forum will focus on research matters, and participants should have a reasonable knowledge of Autism Spectrum Disorders and research methodology.

### KEYNOTE SPEAKER— Dr Susan Leekam, Reader in Developmental Psychology, University of Durham, UK

Sue's research in autism reflects a particular interest in the developmental changes that occur in behaviour and cognition. She is also investigating the occurrence of features of autism in typical infant development in a major longitudinal research study of infants. She was involved in developing and publishing the Diagnostic Interview of Social and Communication Disorders (DISCO), and has set up a specialist unit for research and postgraduate training in developmental psychopathology. Sue's presentation will focus on Social Attention and Social-Cognitive Development in Autism.

### FEES

\$35 (inc GST) students

\$45 (inc GST) members of Autism Victoria

\$55 (inc GST) non members of Autism Victoria

The registration fee includes all refreshments. Plentiful parking is available at the venue. Bell Station is a short walk (Epping line). All delegates will receive a Proceedings booklet.
