

The *objectives* of the Olga Tennison Autism Research Centre are:

1. Facilitate large and/or ongoing research projects.
2. Facilitate collaboration with other research centres both nationally and internationally.
3. Foster and support a National Research Network investigating the cause and management of ASD.
4. Conduct campaigns to improve the public profile of Autism Research.
5. Provide opportunities for student based research and mentoring programs, and
6. Foster knowledge transfer to practitioners within the field.
